New Magical Furniture

SKY B PLANE

Bed

Up, up and away! Take off to the sky for some aeronautical adventures. Sky B Plane is a bed inspired by Disney movie "Planes", in which Leadbottom is a pattering old biplane and a grumbling taskmaster. He has too many crops to spray and not enough hours in the day to spray them. For Leadbottom, it's work first, then ... well, more work. Bring a little aviation-inspired magic to the little pilot's bedroom. With a creative and playful design, the Sky B Plane makes the crib-to-bed transition as painless as possible. The decorative suitcases are storage compartments and allow the kid to climb up and down the airplane.

Soar high above the clouds! Some kids are born to fly!

TEEPEE ROOM

Bed

Teepee, also spelt tipi, is reminiscent of traditional Indian teepees. Circu's Teepee is a bedroom inspired by the free-spirited and highly spiritual young woman, named Pocahontas. She loves adventure and nature. Nowadays, teepees are as in as the newest and latest kids' room ideas and playing activities. Inside the Teepee, you can see a bed with a storage area below it and a secret compartment giving access to a toy box. This toy box is on the back and is equipped with wheels which allow the box to move around the room. For your kids, this teepee will be a luxury sanctuary, which they'll truly love. Bedtime will become the most waited moment of the day.
